McCrery/Herger Respond to Rangel/Levin Trade Proposal

March 27, 2007

By Ways and Means Press Office

“We have had an ongoing dialogue on trade issues with Chairman Rangel since the beginning of the Congress. We are all committed to finding a compromise that allows the Peru, Columbia, Panama, and potentially South Korea Free Trade Agreements to move forward. Such a compromise would also set the stage for an extension of trade promotion authority, which is necessary to ensure that America continues to be a leader in expanding world trade. The Democratic proposal released today is a positive, credible proposal. It goes a long way towards reaching our shared goal. We look forward to working with Chairman Rangel and Chairman Levin to finalize language we can all support.”
